## VEBJORN TANDBERG ELECTRONICS AWARD

This week Electrocompaniet was given the Vebjorn Tandberg Electronics Award. This award is made in memory of Vebjorn Tandberg - the founder for Tandberg - Norway's famous producer of tuners, amplifiers and tape-recorders.

Electrocompaniet was given this award for our unique technology, quality and our success in the international Hi-Fi market.

The award consist of a picture and €43 000! Electrocompaniet will also be supported by Innovation Norway (the Norwegian Trade Council) to open up new international markets. For Electrocompaniet this is a acknowledgement of the work that has been carried out during the last three years in development, quality improvements and international marketing. We are happy and proud to receive this award and we do believe that this award will generate more positive attention on Electrocompaniet and further build up on our strong brand name.
